The 2nd International Conference on Climate Change (ICCC 2021), which was recently held from the 25th to the 26th of May 2021, Virtually on Zoom platform, turn out to be a resounding success in all respects. The conference exceeded the expectations of all – the organizing committee, guests, speakers, and most importantly the delegates in attendance, by going far beyond the standards set forth by previous editions of this event in the past.

The conference saw everyone from leading Climate Change experts, Hazard analyst, Environmental Engineering specialist, and Tech Analysts, as well as Students, Researchers, Academics, Scholars, Industry Professionals, Business Entrepreneurs, and others, gathered together to discuss about research tools and approaches to improve effective responses to climatechange.

The delegates, speakers, and guests at this conference were comprised of people from across the globe making this event a global summit. The conference created a perfect platform for the speakers, delegates etc to address about the current problems in climate change and how to find a solution for the same. The keynote/ oral/poster presentations focused on the sessions Climate Change, Global Warming, Environmental Toxicology, Waste Management, Advanced Biofuels, Air pollution, Green Economy, Earth Science & Economy, Natural Hazard, Renewal Energy Impact on Climate Change, Global Environmental Health, Impact of Climate Change on Public Health, Green Economy. All participants left this event enriched with tons of new and profound knowledge on Global environment, groundbreaking research projects to approach climate Change, pioneering exploratory pursuits, and their outcomes as well as findings.

CONCURRENT TECHNICAL SESSIONS

Climate Change, Global Warming, Environmental Toxicology, Waste Management, Advanced Biofuels, Air pollution, Green Economy, Earth Science & Economy, Natural Hazard, Renewal Energy Impact on Climate Change, Global Environmental Health, Impact of Climate Change on Public Health, Green Economy. These concurrent technical sessions were designed to offer the delegates critical knowledge that was complementary to the expertise that was being disseminated in the main sessions.

ACKNOWLEDGMENTS

All members of the organizing committee liable for the 2nd International Conference on Climate Change (ICCC-2021) deserve due recognition for their efforts in organizing a stellar event that ensured that each one among the delegates who were in attendance at this conference left the event with new and profound insights which will help them see to the progress of their respective specializations within the realms of Climate change

The organizing committee thank all the keynote speakers and presenters who imparted their expertise and important knowledge also as recommendations, to the delegates present. Their efforts in preparing compelling and galvanizing presentations and speeches were much appreciated and resulted within the event being an all-round success. Additionally, thanks for who helped make sure that all arrangements were made, and each aspect of the conference happened in a unprecedented fashion.
